HEALTHIFLEX

Introducing the new
and improved

HealthiFlex benefit!

We're excited to share the new and improved HealthiFlex benefit with you! We have made lots of exciting product improvements to make it even easier for employees to check the status of their health.

What's new?

At-home health assessments

We have added a range of discounted at-home health assessments to our network! With speedy delivery within 7 days of confirmed selection, employees can test for a range of issues including intolerances, allergies, liver function and general health from the comfort and convenience of their own home.

New health providers

We are thrilled to welcome new health providers to our network to offer employees even more coverage and choice. Some of our new partners include market leading provider of home health testing, YorkTest, with lots more in the pipeline to add over the coming months.

Bigger discounts

Our maximum discount on HealthiFlex has increased from 30% off to 50% off! We know that price can sometimes be a barrier, which is why we have secured the best possible discounts to give everyone the opportunity to become healthier.

New website
