Gogeta is a salary sacrifice benefit provider. Our mission is to help make salaries go further with simple, easy to use and innovative salary sacrifice benefits. By paying for things like nursery fees out of their gross salary, hard working parents can get an extra slice of their salary, at no cost to their employer.

## What is Gogeta Nursery?

Gogeta Nursery is a workplace nursery scheme that lets parents pay for nursery bills out of their gross salary, before tax and national insurance contributions. This allows them to make big savings.

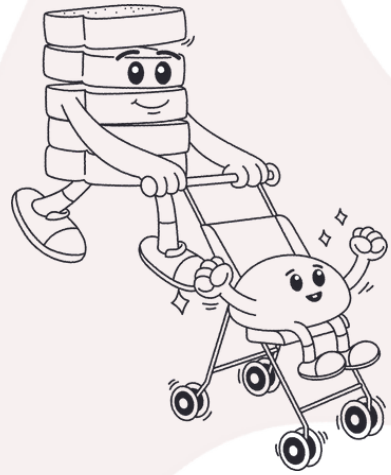

Parents in the UK are struggling with some of the highest childcare bills in the world. Gogeta Nursery is a powerful tool that lets employers give tangible financial help to employees, at no cost to the business.

## How much can parents save?

Parents can save between 19%-40% on nursery bills, depending on their tax band.

Unlike with the Government's Tax Free Childcare scheme, which caps savings at £2000 per year, with Gogeta Nursery these savings are uncapped, so savings over a year are usually much greater.

Parents pay a small platform fee to use Gogeta Nursery, this is paid out of gross salary so all savings are inclusive of this fee and the true savings parents will enjoy.

## A cost neutral benefit for employers

We don't charge employers anything to set up or administer Gogeta Nursery. And there is no minimum number of employees. As part of the scheme requirements, employers must make a variable financial contribution of 12.5% of the parent's fees to the nursery. In this way, the financial contribution meets HMRC's requirement that employers must meet a proportion of the overall costs of providing the care. This financial contribution is covered by the national insurance savings employers make, so this benefit remains cost neutral to them.
