Awareness

1 in 2 people born after 1960 will develop cancer during their lifetime. Early detection saves lives

Risk Prediction

Identify individuals at higher risk to help mitigate the impact of cancer on your organisation.

Insight

Help your employees to take control of their own health by providing affordable cancer screening & personalised health plans.

Prevention Through Early Detection

Health is not just about today.
It's also about predicting tomorrow.

CANCER SCREENING & PERSONALISED HEALTH PLANS

The most important benefit you can provide for your employees is affordable cancer screening. Our cancer screening programme covers UK's six most common cancers and offers a personalised health plan providing cancer prevention insights and recommendations, focusing on exercise, nutrition, sleep and mindfulness.

Bowel Screen

Easy to use at-home sample collection kit for bowel cancer screening. For men and women aged 45+

- No need for a GP visit
- At-home sample collection kit
- Advanced laboratory qFIT testing
- Includes personalised screening programme
- Full clinical advice, support and referral
- Accurate results within 5 days

Skin Screen

Fast-track skin cancer screening clinic service suitable for men and women aged 18+

- Nationwide clinics
- High quality images taken by specialist skin cancer nurses
- Suspicious moles/skin changes reported by consultant skin cancer specialists.
- Professional guidance on protecting skin
- Free skin health information booklet
- Results letter within 5 days

Cervical Screen
